Sickness from this Class is as follows:—SCARLATINA.—110 cases occurred during the year; arranged according to Wards and months in which they occurred they read thus:—

TYPHOID FEVER—

March 31st.—In 37, Pottery Road, cause not discovered.

May 28th.—In 15, Columbia Row, flushing apparatus of w.c. out of order.

July 13th.—In 23, Mill Lane. This house is one of a series of old constructed houses which must soon occupy the attention of the Council on account of their bad sanitary conditions.

July 20th.—In 7, Havelock Junction, this was a very mild case.

July 25th.—In 15, Long Row; I found two casks of sour pig-wash in the back, the sty wanted cleaning badly. There was no cistern in the w.c.

October 12th.—In 21, Hall Street, cistern of w.c. out of order.

October 25th.—In New Road, imported.

October 27th.—In 7, Zion Row, no cause found.

November 12th.—In 94, Swansea Road, no cause found.

December 2nd.—In 19, Water Street, I found the w.c. dilapidated and the drain which ran under the house, apparently faulty as the occupants said they smelt a bad odour when the closet is made use of.

DIPHTHERIA.—One case was reported as occurring in Murray Street, I found the cistern broken in the water-closet.

MEASLES AND WHOOPING COUGH.—These diseases commenced about the beginning of December, 1894, and ceased to be epidemic in June, the former accounting for 5 deaths, and the latter for 41. Whooping Cough is more fatal amongst the children of the working classes on account of their inability to adequately nurse them during the inflammatory stage of the disease.

PHTHISIS.—This complaint accounted for 45 deaths, and would give an average of 1·7 per 1000 of the population, and 90·7 per 1000 deaths.

BRONCHITIS, PNEUMONIA AND PLEURISY.—These were responsible for 90 deaths, 59 being under and 31 over 5 years of age. The mortality from these diseases is equal to 3·5 per 1000 of the population, and 181·4 per 1000 deaths.

ALL OTHER DISEASES.—Under this heading are included :—

Diseases of the Nervous System.		
„	„	Digestive „
„	„	Urinary „
„	„	Generative „
„	of Children.	

INFLUENZA.—There are still sporadic cases of this disease in the district.

AGES AT DEATH.

Of the total number of deaths, 181 were under 1 year ; the proportion to 1000 deaths would be 364·9, and 243 under 5 years, giving a proportion of 489·9 per 1000 deaths.

For the previous 10 years, the figures read thus :—

		Under 1 year.		Under 5 years.
1884	..	261·9	..	374·6
1885	..	258·6	..	477·8
1886	..	275·5	..	494·08

1893	..	313·9	..	407·5
1894	..	298·3	..	436·4

Taking the whole number of deaths, the ages at death are as under :—

SANITARY WORK CARRIED ON DURING THE YEAR.

I have appended the usual analysis of houses to this report, which shows that 5001 houses were inhabited during the year, an increase of 96 on the previous year.

The number of houses in each Ward is as follows :—

Ward No. 1 ..	..	..	1841
Ward No. II.	..	..	1965
Ward No. III.	..	..	1195

The increase in houses in each Ward as compared with last year is :—

Ward No. I. ..	..	..	57
Ward No. II.	..	..	25
Ward No. III.	..	..	14

The following are answers of the Sanitary Inspector addressed to him by myself :—

1. Number of houses visited in the district? All the houses are visited periodically, but in some districts several times in the year.

2. Number of houses reported unfit for habitation? 58.

3. Number of them closed? 10 closed, 10 repaired and re-occupied, 38 still occupied and further proceedings will be taken. Some of these 38 houses are partly renovated, but not to the satisfaction of the Council.

4. Total number of houses reported? 174.

5. Number of nuisances reported? 242.

6. Number of these remedied? 183.

7. Total number of complaints recorded in books? 401.

8. Cases in which proceedings have been taken? 9.

9. Result of proceedings? Orders obtained in all. Fines from 2s. 6d. to 10s. in five cases; one settled out of court on paying 5s., and three paid 5s. and costs.

10. Number of cases of overcrowding? 7.

11. Number of cases abated? All.

12. Complaints of smell from sewer ventilation? Some complaints are made, viz., at New Road, Thomas Street, Old Road-St. Paul's district, Seaside, Coldstream street, Bethania and Cor-

nish Place, and Havelock Street. Several complaints have been remedied since last year.

13. Foul condition of water courses? The brick gutter surface drains are very few in number. Those at Forge, Pembrey Road, are cleaned twice weekly; the Dolau river and open sewer at Northern Channel are cleaned periodically, but they are still a source of nuisance. Part of Dolau open water course has been closed this year.

14. Closets without flushing apparatus? There are many closets connected with the sewer without cisterns, but they are yearly becoming fewer in number. A return made of Ward III showed that 373 closets were not supplied with cisterns; some of these have been supplied since.

15. Closets without proper flushing apparatus? 108 closets were reported last year with taps instead of cisterns, of which 48 were rectified. There are now about 60 closets with taps over the seats of the W.C.'s.

16. Premises having insufficient drainage? In some instances the sewer does not come within reach of houses, so that the drains empty themselves over fields, and become a nuisance, especially during the summer months.

17. Nuisances from offensive trades? Not many complaints made during the year.

18. Common lodging houses; number and condition? Four Registered, viz., Prospect Place, Swansea Road, Upper Water Street (two). Three Unregistered, viz., William Street, Swansea Road, and Cilheol. All are kept in good condition.

19. Dairies and Cowsheds; number and condition? Sixty-nine, two been added since last year. All are kept in fair condition.

20. Public Bakeries? Fifteen, all kept in a satisfactory condition.

21. Is present scavenging sufficient? No, not in some districts, such as bye-streets in town, Greenfield, Seaside, St. Paul's, Wern, and part of New Dock and Seaside.

Some extra carts or waggons are now sent out occasionally.

22. Public Urinals? Besides the conveniences in the Market Place, there are only six public urinals, but the Surveyor has been asked to report on new sites for extra ones.

THE PUBLIC ABATTOIR is regularly visited, and I have not received any complaints of it being a nuisance in the district.

ANIMALS SLAUGHTERED DURING THE YEAR :—

Beasts	..	..	1172
Sheep	..	..	11587
Pigs	..	..	4075
Calves	..	..	897
